She shouldn't be doing much work on NB, although I imagine she will want to review the RI document. I have asked Len and Beth to try to limit her taking the lead on NB tasks.

For Riverside, we only would need help wrapping up the FS and a few other things for this week and next week. We should have the proposed plan published on the 22nd so no critical work after this point.

I wanted to check in with you on whether you are relying on Amy Marie for critical work on your sites? She is asking to do some oversight of OCC-GSH's borrow site sampling that I had not planned on and am not entirely sure is necessary (but could be). The oversight is one full day on July 28.
